

Sustainability Policy Statement

KML Decorators recognises the importance and the need for development of operational practices related to demolition and civil engineering works that will contribute towards an improved sustainable environment. KML will conform to the requirements of environment protection Act 1990, the control of pollution Act 1974 and all other applicable legal and other requirements to which it subscribes and pursue environmentally responsible, sustainable and eco-efficient methods of operating to promote improved standards of working, whilst maintaining the highest quality services. In order to achieve its objectives, KML will have an organization infrastructure to ensure the availability of resources for continual improvement.

KML Decorators shall also;

- Comply with and improve upon the standards required under relevant legislation
- Give full co-operation to statutory bodies administering environmental legislation
- Ensure all environmental aspects and applicable regulatory and other requirements are identified
- Ensure that management personnel familiarise themselves with the requirements of relevant legislation
- Provide instruction to all personnel to enable them to contribute towards the implementation of this policy
- Plan company undertakings, set objectives and targets for environmental improvements and increased sustainability
- Ensure that environmental issues are considered in the decision-making process including waste minimization, recycling options, use of appropriately vetted sub-contractors.
- Endeavour to ensure that contractors working for KML Decorators contribute towards our environmental objectives and encourage best practice through the use of strategic and diverse supplies.
- Ensure that noise is reduced to a practicable minimum
- Consider and minimise all environmental impacts throughout the life cycle of plant and equipment or other relevant assets, including disposal.
- Ensure that potential polluting releases into the environment where practicable, are eliminated, minimized or controlled to reduce the detrimental impact on the environment.
- Monitor the use of natural resources utilised by KML Decorators to ensure they are used as efficiently as is practicable by continually developing sustainable procurement practices.
- Ensure that raw materials and waste products are managed effectively so as to minimise possible adverse effect on the environment, whilst promoting the use of recycled alternatives to increase sustainability.

Sustainability Policy Statement

- Provide necessary resources to ensure effective implementation of this policy.
- Periodically review this policy to ensure that it continues to reflect the requirements and expectations of society and that it meets the requirements of legislation.

KML Decorators will in respect of the company's undertakings, endeavour to cooperate with clients and regulatory bodies and other interested parties in the common objective of improving our working and living environment.
